Comments

25. Describe what you really enjoy about the class.

- Good teacher
- Amazing professor really professional and has great class discussions really love how involved Brooke Mailhiot is.
- I love the project based format of the class. It gives students the ability to be creative, and explore their own ideas when creating work.

26. How could the instructor make this class better?

- More presentations
- Maybe teach how to use the software a little differently. Instead of teaching us a whole bunch of stuff at once, maybe there is a way to space it out a little moare.

25. Describe what you really enjoy about the class.
- I feel like the class itself caters to all types of learners with lectures, group work, hands-on experience, and other methods all being used at different points. In this regard, it feels like the class is inclusive to everyone, and allows everyone to learn at a comfortable pace.
 - visits to virtua. you get a taste of every different job available.
 - I really enjoy how interactive this class is, we really get deep into what its really like to go into the TV field.

26. How could the instructor make this class better?

- This is likely just more of a personal thing than anything to do with the instructor, but I feel like it's easy to get overwhelmed sometimes with the options available to us. Some assignments tend to leave me in a panic because I find myself in doubt about whether or not I'm actually doing things correctly or not. It's usually these panic moments of mine that result in me falling behind in one way or another, but again, this might just be a personal issue above anything that the instructor is doing.
- announce homework in class.
- Go over the camera controls better

- I'm not sure about the anonymity of this survey, or if I'll end up bringing this up to you in one way or another, but in case I don't bring this up at any point, I wanted to apologize for my aloof approach to things as the final project was starting up. For reasons beyond my comprehension, I ended up falling into a slump that's left me feeling even more wound up, uneasy, and panicky than usual. I've been dealing with personal issues for some time now, and it's unfortunate that such issues haven't cleared up as a result of changing my major. That said, however, it's no excuse for my poor timing and work ethic during this period, and I hope to work around such behaviors in the future. I've really enjoyed this class, and I have a feeling that I'll enjoy the rest of the curriculum, as well. I only hope that I'll be able to shine even brighter when the next class(es) begin!

25. Describe what you really enjoy about the class.

- I feel like the class itself caters to all types of learners with lectures, group work, hands-on experience, and other methods all being used at different points. In this regard, it feels like the class is inclusive to everyone, and allows everyone to learn at a comfortable pace.
- visits to virtua. you get a taste of every different job available.
- I really enjoy how interactive this class is, we really get deep into what its really like to go into the TV field.
- Good teacher
- Amazing professor really professional and has great class discussions really love how involved Brooke Mailhot is.
- I love the project based format of the class. It gives students the ability to be creative, and explore their own ideas when creating work.

26. How could the instructor make this class better?

- This is likely just more of a personal thing than anything to do with the instructor, but I feel like it's easy to get overwhelmed sometimes with the options available to us. Some assignments tend to leave me in a panic because I find myself in doubt about whether or not I'm actually doing things correctly or not. It's usually these panic moments of mine that result in me falling behind in one way or another, but again, this might just be a personal issue above anything that the instructor is doing.
- announce homework in class.
- Go over the camera controls better
- More presentations
- Maybe teach how to use the software a little differently. Instead of teaching us a whole bunch of stuff at once, maybe there is a way to space it out a little moare.

25. Describe what you really enjoy about the class.

- Teacher Influence.
- I like the small class size and our professor really knows her subject well. She is very approachable, is always smiling and cheerful, has a good nature about her.

26. How could the instructor make this class better?

- I wonder if it would make sense to teach more than one type of editing software. She had to fight hard to get new Mac computers for this class and a different editing system would require more computers, different computers, more software and more money.

25. Describe what you really enjoy about the class.

- I enjoy how hands on the course is and how much responsibility the course has given me in preparing for future courses that are four credits.
- I really enjoy that it's an all hands-on learning class so that i get to be familiar with the necessary equipment i will be working with in my field of work. I also like that the class is being taught inside an actual studio space to feel like i'm working and learning inside a real studio.
- Our professor knows her stuff very well, she is very approachable, dedicated to her students and to what she is teaching. She not only does she care about her students but about the TV program. Her classroom, which is the TV studio is about to be torn down and re-modeled into classrooms. It concerns me that this program may go away, but that would be a tragedy. What she has built is amazing and it can only get better if the administration of this school allows it. A few of the students and I created a quality PSA for the SGA's Baron Talk. It was under her direction and commitment that we were able to do this. She deserves a lot of credit and I want to see this program continue.

26. How could the instructor make this class better?

- Maybe giving students more time to do assignments. Sometimes she gives the assignment out on Tuesday and it's due Thursday and it's an off campus assignment. Students work, have home responsibilities etc...
- There's Nothing bad about my instructor what so ever that could make this any better than it already is. The only thing i could say is to make sure that the equipment and technology for this class stays new and up to date.

Comments

25. Describe what you really enjoy about the class.

- Teacher influence.
- I like to film and the discussions.
- Teacher Influence.
- I like the small class size and our professor really knows her subject well. She is very approachable, is always smiling and cheerful, has a good nature about her.
- I enjoy how hands on the course is and how much responsibility the course has given me in preparing for future courses that are four credits.
- I really enjoy that it's an all hands-on learning class so that i get to be familiar with the necessary equipment i will be working with in my field of work. I also like that the class is being taught inside an actual studio space to feel like i'm working and learning inside a real studio.
- Our professor knows her stuff very well, she is very approachable, dedicated to her students and to what she is teaching. She not only does she care about her students but about the TV program. Her classroom, which is the TV studio is about to be torn down and re-modeled into classrooms. It concerns me that this program may go away, but that would be a tragedy. What she has built is amazing and it can only get better if the administration of this school allows it. A few of the students and I created a quality PSA for the SGA's Baron Talk. It was under her direction and commitment that we were able to do this. She deserves a lot of credit and I want to see this program continue.

26. How could the instructor make this class better?

- Have more hands on with the control room equipment, more practicing and role playing.
- I wonder if it would make sense to teach more than one type of editing software. She had to fight hard to get new Mac computers for this class and a different editing system would require more computers, different computers, more software and more money.
- Maybe giving students more time to do assignments. Sometimes she gives the assignment out on Tuesday and it's due Thursday and it's an off campus assignment. Students work, have home responsibilities etc...
- There's Nothing bad about my instructor what so ever that could make this any better than it already is. The only thing i could say is to make sure that the equipment and technology for this class stays new and up to date.
