Comments

25. Describe what you really enjoy about the class.

- I find this course very interesting and enjoyable
- Easy to understand and an interesting topic
- I like the material this class covers and I learned so much with the assignments the professor has done.
- I enjoy learning about different topics in the media and how the world keeps changing. This course is a real eye-opener.
- She's really good at organizing all of the work by a week-to-week basis, because otherwise it would be a cluster to navigate. Seriously, Blackboard is pretty much the worst tool ever; There HAS to be another program RCBC can use.

26. How could the instructor make this class better?

- I cannot think of anything that needs improvement
- Give more guidance.
- Open the next chapters sooner than Wednesdays. Sometimes students finish assignments days before it's due and it'd help if the next chapters were already open.
- I wouldn't change anything. It's a good course already.
- I know it's hard to do anything else for an online class, but I HAAAAATE Connect. Why are there SO MANY questions?! No, seriously, why am I answering sixty questions on magazines? It's silly.

25. Describe what you really enjoy about the class.

- I am a year and a half into this whole college nonsense, and so far it has been the only class to teach me a single thing. This is because it's hands-on. In a field like this, everyone learns by doing. Why am I taking literally any of my other classes if they don't teach me a darn thing about RTF? It's maddening! So shoutout to Brooke for making at least one class useful.

26. How could the instructor make this class better?

- She can sometimes be very helpful with questions. Other times, it seems like her patience is wearing out, as if she expects us to already know answers about a topic we've never learned about before. Those things don't happen too often, but can be a bit annoying when they do come up.

25. Describe what you really enjoy about the class.

- I am a year and a half into this whole college nonsense, and so far it has been the only class to teach me a single thing. This is because it's hands-on. In a field like this, everyone learns by doing. Why am I taking literally any of my other classes if they don't teach me a darn thing about RTF? It's maddening! So shoutout to Brooke for making at least one class useful.
- filming and making a documentary
- I really enjoy the process of filming a video or in this case a documentary and I love learning new things in the process.
- It is a really awesome class to be in
- I like the free availability to record anything that you want and with that it allows you to become more creative in the process.
- I find this course very interesting and enjoyable
- Easy to understand and an interesting topic
- I like the material this class covers and I learned so much with the assignments the professor has done.
- I enjoy learning about different topics in the media and how the world keeps changing. This course is a real eye-opener.
- She's really good at organizing all of the work by a week-to-week basis, because otherwise it would be a cluster to navigate. Seriously, Blackboard is pretty much the worst tool ever; There HAS to be another program RCBC can use.

26. How could the instructor make this class better?

- She can sometimes be very helpful with questions. Other times, it seems like her patience is wearing out, as if she expects us to already know answers about a topic we've never learned about before. Those things don't happen too often, but can be a bit annoying when they do come up.
- Nothing
- I don't think this class needs to get better when it is already a really great class to begin with.
- She is just a wonderful instructor
- I don't think you need to make this any better than it already is
- I cannot think of anything that needs improvement
- Give more guidance.
- Open the next chapters sooner than Wednesdays. Sometimes students finish assignments days before it's due and it'd help if the next chapters were already open.
- I wouldn't change anything. It's a good course already.
- I know it's hard to do anything else for an online class, but I HAAAAATE Connect. Why are there SO MANY questions?! No, seriously, why am I answering sixty questions on magazines? It's silly.

Comments

- 25. Describe what you really enjoy about the class.
- 26. How could the instructor make this class better?

- I think this class requires a lot of work that is unnecessary for the class. There is almost too much work to where it makes me just have to rush through it to get it done. Instead of competing it to my best ability.

32. Please provide any other final comments you have.

- The only thing I was confused about with Professor Mailhiot is that she said that we could submit late submissions with a deduction grade for being late and then later she changed it in the middle of the semester that we couldn't submit any late submissions and I got confused.

Comments

25. Describe what you really enjoy about the class.

- I love the hands on experience. Really it's the only way to learn in this field. By going out and working on projects, we are getting real experience in our feild

26. How could the instructor make this class better?

- We have some good pieces of equipment, but we're still missing a lot of industry standard tech. Video editing software like Premiere Pro and adobe after effects would be fantastic tools to learn about, but we lack those programs.

25. Describe what you really enjoy about the class.

- I love the whole class. It does not feel like a regular class because you are able to interact with your peers. I really enjoy going to the virtua studio. It's amazing there and a great learning experience.
- I really enjoyed how learned off campus going to virtua, learning hands on really made me want to learn more about it.
- Having access to a studio to get hands on is by far the best college i ever experienced.
- going to the different tv studio layouts, especially Virtua, to see how equipment works in real time.
- Going to the Virtua studio is the best part about the class.

26. How could the instructor make this class better?

- It is already better than I could have ever hoped for.
- be more open to suggestions and allow the students to learn and make mistakes before correcting them.
- More time learning the positions in the studio.

25. Describe what you really enjoy about the class.

- The work that given to us
- I love the whole class. It does not feel like a regular class because you are able to interact with your peers. I really enjoy going to the virtua studio. It's amazing there and a great learning experience.
- I really enjoyed how learned off campus going to virtua, learning hands on really made me want to learn more about it.
- Having access to a studio to get hands on is by far the best college i ever experienced.
- going to the different tv studio layouts, especially Virtua, to see how equipment works in real time.
- Going to the Virtua studio is the best part about the class.
- I love the hands on experience. Really it's the only way to learn in this field. By going out and working on projects, we are getting real experience in our feild

26. How could the instructor make this class better?

- It is already better than I could have ever hoped for.
- be more open to suggestions and allow the students to learn and make mistakes before correcting them.
- More time learning the positions in the studio.
- We have some good pieces of equipment, but we're still missing a lot of industry standard tech. Video editing software like Premiere Pro and adobe after effects would be fantastic tools to learn about, but we lack those programs.
- I think this class requires a lot of work that is unnecessary for the class. There is almost too much work to where it makes me just have to rush through it to get it done. Instead of competing it to my best ability.

32. Please provide any other final comments you have.

- I really enjoyed going to the virtua studio it was very fun and I would recommend going back there if I had the chance to.
- Glad to see this program is expanding. If the college continues to support the program, I could see it becoming even stronger than programs at 4 year institutions.
- The only thing I was confused about with Professor Mailhot is that she said that we could submit late submissions with a deduction grade for being late and then later she changed it in the middle of the semester that we couldn't submit any late submissions and I got confused.
