25. Describe what you really enjoy about the class.

- Something that I really enjoy is by going to virtual studio we get learn and see the production work that done in outside world
- I love the technology we have access to. I've been able to work in a real studio and use professional level video equipment in a hands on manner. I've learned skills in this class that I will be able to apply to real life.

26. How could the instructor make this class better?

- N/A
- The equipment we have is great, but I feel like we are still lacking in some areas. We have a very limited number of camera's and sound equipment, which limits the amount of work we can do during class time.

26. How could the instructor make this class better?								

- I'm not particularly fond of having to spend some of my own money in order to accomplish some of these assignments. Since I don't have any media service subscriptions to work off of, I usually have to rent or buy movies online to complete these assignments. It's not much in the big picture, and it's fine in this case if only because there is no overly expensive textbook to go along with the class, but I do feel somewhat cheated that I'm still having to pay more to complete assignments.

25. Describe what you really enjoy about the class.

- Something that I really enjoy is by going to virtual studio we get learn and see the production work that done in outside world
- I love the technology we have access to. I've been able to work in a real studio and use professional level video equipment in a hands on manner. I've learned skills in this class that I will be able to apply to real life.
- I like how Brooke always asks our opinion on a project, it help with my own creative flow when she stops to ask for our input, especially in a class that involves so much personal thought
- I love taking this class. Having the creative freedom to create what we want is such a fun experience and different from every other class I have taken this far. My favorite class this school has to offer to date.
- The way that this class is handled is pretty much perfect to me. It provides a clear basis to show growth and progress, while providing more and enough opportunities to work within fair measures. I always feel like I have enough time to handle everything that is asked of me.

26. How could the instructor make this class better?

- N/A
- The equipment we have is great, but I feel like we are still lacking in some areas. We have a very limited number of camera's and sound equipment, which limits the amount of work we can do during class time.
- I would have preferred having more of a say in the final documentary topic
- I'm not particularly fond of having to spend some of my own money in order to accomplish some of these assignments. Since I don't have any media service subscriptions to work off of, I usually have to rent or buy movies online to complete these assignments. It's not much in the big picture, and it's fine in this case if only because there is no overly expensive textbook to go along with the class, but I do feel somewhat cheated that I'm still having to pay more to complete assignments.

- Brooke has built a strong program here. I am excited to see it grow and develop further.
- It's been quite enjoyable to go through these courses, and I would like nothing more than for this program to grow and expand in the future. In that regard, the least I can do is hope for the best.

25. Describe what you really enjoy about the class.

- I really enjoyed meeting different film makers who have a creative niche like myself. The final project is something I really enjoyed. Instead of everyone doing their own documentary film and pretty much staying in their own comfort zone, we split up into two groups and did something that was educational and for me different. I had a lot of fun in this class.

25. Describe what you really enjoy about the class.

- This is my favorite class so far because it is so hands on! We actually go to a recording studio and film mock news casts and learn about all the equipment used behind the scenes, it's just a really fun class and Professor Mailhiot is an amazing instructor.
- Prof Mailhoit is an amazing teacher! I enjoy and get excited for going to class everyday. She is clearly so knowledgable and passionate in her field and it is exciting. I would go as far as to say that she is probably over qualified to teach us. Very welcoming, warm and funny she was a pleasure to have this semester.
- it is very interactive, and hands on.

26. How could the instructor make this class better?

- The only thing is sometimes she doesn't tell us about homework assignments that are due so they pass right over us.
- The only negative I would have (and it is very minor) is that I wish we were warned more about online assignments.
- Remind us to check blackboard for homework, and have an organized syllabus that helps our class study for tests/quizzes/etc.

25. Describe what you really enjoy about the class.

- Editing is a field that I've found great interest in as of late and so, this class was really cool to experience and now I know even more about the editing world. It also gave me the chance to partake in some really fun projects.
- I really enjoyed the hands on experience. Going out in the field, getting my assets and showing others the vision I had for the assignments that were given. Before this class I knew nothing about editing techniques. The Professor provides examples that help me understand editing a little bit better.

26. How could the instructor make this class better?

- Perhaps sharing the link for the Ripple training online at the get-go with the syllabus could be really helpful. I myself and a couple other students continue to have difficulty completely adjusting to the Final Cut, and so that option being there from the beginning would be helpful.
- Clear instructions for papers that are assigned.

25. Describe what you really enjoy about the class.

- n/a not an actual class.

26. How could the instructor make this class better?

- This course could be better because there should be no certain amount of hours you must get in order to get an "experience" Someone can get experience at any timing. Being a college student while working a real full time job and some people may be parents finding an internship and finding time to go was rather difficult. I felt very overwhelmed this semester with balancing work, kids, class, homework and the internship. There should be some kind of ultimatum with either doing the internship or taking an extra class or two. I've spent months searching for one, and because I have no degree most places didn't even look my way, luckily I did find one here on campus. I just find it a bit unfair that all my classes are completed with passing grades and my fate to graduate is based on my hours at an internship. It isn't right..

25. Describe what you really enjoy about the class.

- This is my favorite class so far because it is so hands on! We actually go to a recording studio and film mock news casts and learn about all the equipment used behind the scenes, it's just a really fun class and Professor Mailhiot is an amazing instructor.
- Prof Mailhiot is an amazing teacher! I enjoy and get excited for going to class everyday. She is clearly so knowledgeable and passionate in her field and it is exciting. I would go as far as to say that she is probably over qualified to teach us. Very welcoming, warm and funny she was a pleasure to have this semester.
- it is very interactive, and hands on.
- I really enjoyed meeting different film makers who have a creative niche like myself. The final project is something I really enjoyed. Instead of everyone doing their own documentary film and pretty much staying in their own comfort zone, we split up into two groups and did something that was educational and for me different. I had a lot of fun in this class.
- Editing is a field that I've found great interest in as of late and so, this class was really cool to experience and now I know even more about the editing world. It also gave me the chance to partake in some really fun projects.
- I really enjoyed the hands on experience. Going out in the field, getting my assets and showing others the vision I had for the assignments that were given. Before this class I knew nothing about editing techniques. The Professor provides examples that help me understand editing a little bit better.
- n/a not an actual class.

26. How could the instructor make this class better?

- The only thing is sometimes she doesn't tell us about homework assignments that are due so they pass right over us.
- The only negative I would have (and it is very minor) is that I wish we were warned more about online assignments.
- Remind us to check blackboard for homework, and have an organized syllabus that helps our class study for tests/quizzes/etc.
- Perhaps sharing the link for the Ripple training online at the get-go with the syllabus could be really helpful. I myself and a couple other students continue to have difficulty completely adjusting to the Final Cut, and so that option being there from the beginning would be helpful.
- Clear instructions for papers that are assigned.
- This course could be better because there should be no certain amount of hours you must get in order to get an "experience" Someone can get experience at any timing. Being a college student while working a real full time job and some people may be parents finding an internship and finding time to go was rather difficult. I felt very overwhelmed this semester with balancing work, kids, class, homework and the internship. There should be some kind of ultimatum with either doing the internship or taking an extra class or two. I've spent months searching for one, and because I have no degree most places didn't even look my way, luckily I did find one here on campus. I just find it a bit unfair that all my classes are completed with passing grades and my fate to graduate is based on my hours at an internship. It isn't right..
